POLY FURNITURE FOR LIFE

ABOUT OUR MATERIALS

What is Poly Lumber?

Poly Lumber is derived from post-consumer polyethylene bottle wastes such as milk and juice containers. This material is cleaned in a decontamination process to a purity level of over 99% HDPE. It is then extruded into rigid board stock. Unlike composite lumber, poly lumber is constructed of over 90% high density polyethylene and contains no wood fillers, resulting in a product that will last a lifetime.

Will It Fade?

Our Poly Lumber contains UV stabilizer which minimizes material breakdown from prolonged sun and weather exposure; however, red, orange and yellow are the most susceptible to fading.

Poly Furniture Warranty

Our furniture comes with a limited warranty covering defects in workmanship, the integrity of the poly lumber material and construction hardware. Minimal color fading is excluded from the warranty. Specific warranty information is available from each series of furniture in this catalog. Ask your sales representative for more details.

HARDWARE

We select hardware components for durability, including powder coated, stainless steel and zinc coated. Most screws and bolts are 316 Marine Grade Stainless Steel.

Consider the Benefits

- Will not grow mildew, warp or rot.
- UV Stabilized—no winter storage required.
- Chemical Free
- No painting or Staining
- Does not absorb water

HOW THIS CATALOG WORKS!

This catalog is divided into colored sections. Each section is a different series. At the end of each series are the colors available for that furniture in that section. It is best to stay within each series with your order, however you can ask your sales rep which items you can mix or match. Also you will notice "Standard and Natural" prices. Standard price is for the regular standard color poly (see color swatch page). It is more smooth. The Natural price is for the Natural color poly (see color swatch page) and has more of a wood grain design in the material.

BERLIN SERIES

Relax with furniture that won't warp or require painting so you can truly enjoy your outdoor space.

BERLIN SERIES Nordic Collection (MGP)

Contemporary style for your outdoor living space. Made with premium marine-grade VYCOM® Seaboard® poly.

BERLIN SERIES Classic Terrace Collection

Make your decks and patios a stress-relieving extension of your home for family and friends with the Classic Terrace Deep Seating collection.

Our deep seating cushions come standard with reticulated (flow-through) foam, providing superior drainage compared to standard urethane foam.

Take the edge off a cool evening
or enliven a cozy patio corner
with one of our poly Fire Tables or Fire Pits.

Button Ignition: Makes lighting a fire take only a moment
Durable Cover: Protects your fire table/pit when not in use

All fire tables and fire pits come with clear glass beads, glass wind guard, a convenient storage place for propane tanks, and a poly cover for optimum protection.

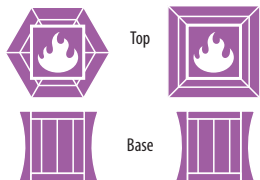

Design Your Own Fire Table/Fire Pit

Hybrid and Poly Lighthouses

 Indicates that lighthouse is available in all poly.

Our Hybrid lighthouses are made of wood with a poly top, wood center and a poly base. The Hybrid lighthouse is a perfect choice for those who love the striped and painted color scheme, but also prefer the maintenance free poly. Since the top & bottom are the first to feel the effects of the weather, the Hybrid gives you a product that will endure the test of time.

All sizes of our Poly Lighthouses can be customized in any of our standard colors shown on page 54.

2' - 5' lighthouses are also available in premium colors.

FABRIC & FURNITURE CLEANER

Outdoor furniture and fabric cleaners give maximum results with minimal effort. Each product cleans safely yet effectively.

Mildew Stain Remover

For use on white poly outdoor furniture. • 32 oz. • **BG32MSR • \$17**
Removes mildew stains from vinyl, cushion, umbrellas and other outdoor surfaces

Heavy Duty Xtreme Clean

For use on colored poly outdoor furniture. Not white. • 32 oz. • **BG32EC • \$19**
All-surface cleaner and degreaser removes tough stains, dirt, bird deposits and more.

Water Repel

For use on outdoor pillows, cushions and umbrellas. • 32 oz. • **BG32WR • \$29**
Waterproofs canvas, nylon, all fabrics and leather.

Heavy Duty Fabric Cleaner

For use on outdoor pillows, cushions and umbrellas. • 32 oz. • **BG32HDFC • \$17**
Removes tough dirt, stains, bird deposits, and more. Provides UV protection.

Will I get MILDEW and FUNGUS on my furniture?

The answer is yes.

Mildew and fungus are by-products of nature. Wherever you have a combination of shade and moisture you are likely to have mildew or fungus form on anything. The good news is that it is not harmful to poly furniture and usually can be cleaned by the following methods.

Do not clean your poly furniture with a scrub pad (for example, Scotch Brite Pads.) Use a mild cleaning agent that is approved for use on plastics such as our new Mildew Stain Remover, (white furniture only). Or products such as Mean Green, 409 Cleaner, or any of the new environmentally safe natural products. Household bleach diluted with water and a little dish detergent is a good and effective way to remove mold and most fungus.

Always use a soft cloth when cleaning your poly furniture and rinse well. If you have a large amount of poly to clean, consider using a pressure washer with water and a small amount of household bleach added to the pressure washer tank. Also rinse thoroughly with water. Keep pressure under 2,000 PSI. Do not direct the spray close to the furniture. Tar or lawn mower tire marks and tree sap can be cleaned off with mineral spirits or a

similar product. The removal of tree sap requires a little more effort, or as us old-timers say, a lot of elbow grease.

How about those small black dots on my fence or poly furniture? They are just fly dirt, right? Maybe...but most likely they are a fungus spore more commonly called shotgun spores, or if you prefer the scientific name, Sphaerobolus Stellatus. These fungus spores live in mulch and decaying matter. If you use your fingernail and scratch the black dot it will reveal a reddish dot.

How do you remove these spores? Well, it's not easy. The longer the fungus is on your railing or furniture the harder it is to remove. These spores can only be removed with a mild soap solution and a lot of elbow grease. When you first see these dots, remove them immediately. The best way to prevent these spores from forming is to use synthetic or non-wood fiber mulch.

There are many articles written about this fungus. You will find that the best solution to the fungus problem is prevention. For further information search the internet for artillery or shotgun fungus.

CARE FOR POLY FURNITURE Easy to Care for

Our Poly Furniture is not affected by most corrosive substances, and will not promote bacterial growth. To maintain the beauty of your furniture, simply clean it regularly with non-abrasive soap and water or our new cleaner. While most colors need to be cleaned a few times per year, certain colors such as white (but not limited to this color) need to be cleaned more frequently in order to maintain its original beauty. In extreme situations and with colors such as white, spray the furniture thoroughly with a nonabrasive cleaner then scrub the furniture using a soft bristle brush and rinse off with warm, clean water. If needed, spray the furniture with nonabrasive cleaner and wash it using a high pressure washer. Do not place the tip of your pressure washer closer than 8" to 10" from the furniture or it will tear into the furniture.

Do not place flower pots or any items on furniture that will leave stains.
Do not place hot items directly onto the furniture to avoid melting.

CLEANING UMBRELLAS

100% Solution-Dyed Polyester Fabrics: Grade C (Our exclusive 4800 series)
Limited warranty against fading: 4 Years

MOST STAINS ON SOLUTION-DYED FABRICS CAN BE CLEANED UP WITH A MILD SOAP AND WATER SOLUTION. Solution-Dyed fabrics should be cleaned regularly before substances such as dirt, etc., are allowed to accumulate on and become embedded in the fabric.

The fabric can be cleaned without being removed from the umbrella. Simply brush off any loose dirt, etc., clean with warm water (no more than 100° F) and a mild natural soap. Rinse thoroughly to remove soap. When using liquid detergent, it may be necessary to re-apply a water repellent treatment, such as Water Repel on page shown above. When washing or cleaning, DO NOT SUBJECT TO EXCESSIVE HEAT as the fabric will shrink. DO NOT STEAM PRESS OR DRY IN ELECTRIC OR GAS DRYERS. Allow fabric to air dry. In case Solution-Dyed fabrics are stored during the winter season, it should be cleaned, allowed to air dry and stored in a dry, well ventilated area.
